Dear Bobby:

CONGRATULATIONS! All of us at Blackstone Career Institute are proud to number you among our graduates. We are pleased we could be part of your education and hope your time with us has been rewarding. You certainly should be proud of your accomplishment.

As the Director, I know that you have worked hard and made some personal sacrifices to complete this course. It indicates to me that you are committed to your studies and realize the role educational training can play in attaining your goals.

Our staff is genuinely interested in our students' success. We appreciate when a graduate writes to let us know they are utilizing their educational training while working in their chosen profession. As part of our continuing efforts to enhance the standing of Blackstone Career Institute as an important resource for quality education, we seek your insight into how we can improve our course. If you have not completed the Student Satisfaction Survey I would encourage you to do so.

Included in your graduation packet you should find your diploma for the Blackstone Career Institute program completed along with your official school transcript.

Again, congratulations on your completion and best wishes in all your future endeavors.

Sincerely,

Kevin J. McCloskey
Director

March 28th, 2013

To Whom It May Concern,

It is with great enthusiasm that I write to offer my support for Bobby Bostic. Understanding that we all come from different backgrounds and situations, Bobby stands out as an individual who has a passion for education and further fulfillment in his life. Evidence of this passion is the fact that Bobby chose to be a part of the education program developed and offered by Missouri State University - West Plains. This education program is a four course program of core business classes of which I had the pleasure to lead instruction of an introductory course in Marketing and Management. Bobby excelled in these classes.

To be specific, Bobby is articulate and has the ability to develop a thought and communicate a point thoroughly both verbally and in written form. In his writing and creation of a comprehensive business plan it is easy to detect a strong sense of entrepreneurship and confidence in his unique skill set that will serve him well. Class work and any assignments were always delivered on time which is a strong display of responsibility and respect for the class. Through the class discussions that we held it became evident that Bobby's desire to be an upstanding and productive member of society is genuine.

Recognizing that my interaction with Bobby has been limited to our time in class and through his written work submitted as part of the curriculum, it is my feeling that I am in a position to provide a positive character reference based on what I know and have had the opportunity to learn about him. Please consider my thoughts and testimony as you consider Bobby for employment or other future opportunities.

Best Regards,

Joe Driscoll
